

Continuing Education/Continuing Medical Education (CE/CME)

Neonatal Grand Rounds - Disorders of Coagulation

WHEN: October 13, 2025 — October 13, 2027

Presentation purpose:

- Neonatal Care practices continue to evolve and improve. Ongoing research and quality improvement initiatives in the neonatal care specialty and supporting sub-specialties require exploration and understanding for proper implementation into practice. This program will provide neonatal care providers current trends in care with supportive data, evidence-based practices, and early recognition of neonatal conditions that require consultation and intervention with sub specialists. This continuous quality improvement activity in the care of infants is one way to address the high infant mortality rates in the state of Indiana and nationally

Learning objectives:

- Discuss the pathophysiology or physiologic impact of the neonatal condition/topic presented.
- Identify care improvement strategies related to the neonatal condition/topic presented
- Explain the importance of early recognition for specialty consultation and involvement as needed for the neonatal condition/topic presented

Target audience:

This activity is designed for the interdisciplinary audience including the following: Specialties: Neonatal

Faculty/Course Director/Planners:

Ascension has selected all faculty participating in this activity. It is the policy of Ascension that all CE/CME planning committees, faculty, authors, editors, and staff disclose relationships with commercial interests upon nomination or invitation of participation. Disclosure documents are reviewed for potential conflicts of interest and if relevant, they are resolved prior to confirmation of participation.
