Presentation purpose:

- Care for Pediatric patients is always evolving and healthcare staff need to be informed of new and innovative practices to care for their patients to optimize care and reduce mortality and morbidity. Topics have been chosen based on surveys, peer reviewed literature, special society guidelines, and hospital quality indicators. This program will provide information regarding; updates on immunization schedules, emerging pathogens such as COVID; increase in need for mental health services for children and adolescents; nationwide opioid epidemic and mothers giving birth to affected newborns; uncommon dermatologic conditions and treatment; surgical issues; and caring for children who are surviving longer with chronic and serious condition and their need for end of life care.

Learning objectives:

- Recognize the etiologic agents, diagnosis, and treatment of the following disorders: scabies, herpes simplex, congenital syphilis, tinea corporis, tinea capitis, and pediculosis capitis.
- Discuss the unique issues of COVID-19 in Pediatrics.
- Review the physiology of Neonatal Hydronephrosis and understand appropriate evaluation and treatment.
- Explain the dynamics of depression and anxiety in children
- Identify at least five diseases/problems/conditions that pediatric surgeons treat/manage.
- Identify opportunities to apply palliative care principles in the primary care setting.
- Appreciate the historical importance of medical illustration.
- Review Chiari malformations, including history and classification, associated conditions and findings, signs and symptoms, and management.
- Discuss Tethered spinal cords, including history and classification, associated conditions and findings, signs and symptoms, and management.

Target audience:

This activity is designed for the interdisciplinary audience including the following:

Specialties: Cardiology, Dermatology, Family Medicine, General Medicine, Pathology & Laboratory Medicine, Pediatrics, Primary Care, Psychiatry, Surgery

Professions: Physician and Nurse,

Accreditation
