Presentation purpose:

Migraine headache is a common, debilitating disorder. Since 2018, there have been at least seven new FDA-approved medications which includes three novel classes of medication as well as four neuro-modulation devices. This activity will cover three new classes of FDA approved migraine pharmacological therapies as well multiple FDA approved neuro-modulation devices for headache therapy.

Learning objectives: Upon completion of this activity participants should be able to:

- To understand the role CGRP plays in headache disorders
- To explore the extended data for CGRP modulating monoclonal antibodies (mAbs)
- to introduce novel classes of migraine medications
- To understand the role neuro-modulation devices are playing in migraine therapy

Target audience:

- This activity is designed for the interdisciplinary audience including physicians, nursing, pharmacy, psychologist, physician assistants and social workers

Credit Designation:

In support of improving patient care, Ascension/St. Vincent's Health is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

This activity was planned by and for the healthcare team, and learners will receive 1.0 IPCE credits for learning and change.

Faculty/Course Director/Planners:

Ascension/St. Vincent's Health has selected all faculty participating in this activity. It is the policy of Ascension/St. Vincent's Health that all CE/CME planning committees, faculty, authors, editors, and staff disclose relationships with commercial interests upon nomination or invitation of participation. Disclosure documents are reviewed for potential conflicts of interest and if relevant, they are resolved prior to confirmation of participation. Only those participants who have no conflict of interest or who agreed to an identified resolution process prior to their participation were involved in this activity.

Conflict of Interest: In accordance with the ACCME Standards for Commercial Support, it is the policy of Ascension/St. Vincent's Health to ensure balance, independence, objectivity and scientific rigor in all CE/CME activities. Full disclosure of conflicts and conflict resolution will be made in writing via handout materials or syllabus.

Commercial Interest: No commercial interest was received for this CE/CME activity.
