OR IN PERSON: St. Vincent's East; Birmingham, AL • Room 1 & 2

For more information call (205) 838-3225

Presentation purpose:

Each week, dozens of people die waiting for an organ or tissue transplant—lives that could be saved by improving general knowledge of organ donation and recovery among healthcare professionals and the lay public alike. This activity will review performance and patient outcome, increase early referral for organ donation and identify potential donors.

Learning objectives: Upon completion of this activity participants should be able to:

- Describe the role of the physician and clinician in the organ donation process and be aware of available tools
- Be knowledgeable of current regulations
- Explain the best practices for early referral, huddling, brain death testing and family approach
- Be knowledgeable of donor family care support and follow-up following donation

Target audience:

- This activity is designed for the interdisciplinary audience including physicians, nursing, pharmacy, psychologist, PA, and social workers

Credit Designation:

In support of improving patient care, Ascension/St. Vincent's Health is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

This activity was planned by and for the healthcare team, and learners will receive 1.0 IPCE credits for learning and change.

Faculty/Course Director/Planners:

Ascension/St. Vincent's Health has selected all faculty participating in this activity. It is the policy of Ascension/St. Vincent's Health that all CE/CME planning committees, faculty, authors, editors, and staff disclose relationships with commercial interests upon nomination or invitation of participation. Disclosure documents are reviewed for potential conflicts of interest and if relevant, they are resolved prior to confirmation of participation. Only those participants who have no conflict of interest or who agreed to an identified resolution process prior to their participation were involved in this activity.

Conflict of Interest: In accordance with the ACCME Standards for Commercial Support, it is the policy of Ascension/St. Vincent's Health to ensure balance, independence, objectivity and scientific rigor in all CE/CME activities. Full disclosure of conflicts and conflict resolution will be made in writing via handout materials or syllabus.

Commercial Interest: No commercial interest was received for this CE/CME activity.
